Subject: NUS Sampling Report From Early 1980s

Bill and Adam,

This will follow up on your recent inquiry about "Phase V" data collected at and near the Givaudan facility in Clifton by NUS in the early 1980s, and whether Region 2 has been able to locate the report that includes the data.

Eugenia Naranjo and I have both conducted searches for the report. We searched RCRA records maintained in paper form in the Region. We searched the paper and electronic files maintained in the Region for Superfund sites. We contacted several people in other EPA offices by email including: Marlene Berg, Matt Lorber, Steve Ells, and Marc Greenberg. None knew where the report might be. We also spoke with contacts at NJDEP to ask whether they could locate a copy of the report, without success. At the moment, we have no new ideas about where else to look within EPA.

-Sarah
